---

### PROJECTS

---

#### Vendor Management Inventory System (DBI 360)

08/2024 – Present

- Developed and implemented a vendor management and inventory automation platform, integrating REST APIs for real-time data exchange with third-party vendors.
- Utilized **Zapier** for automated mail triggering and **n8n** for workflow automation, reducing manual processing time by **40%**.

#### Audit Management System (DBI360)

08/2024 – Present

- Developed and optimized the audit report module, handling multiple forms and interlinking all modules for comprehensive reporting.
- Integrated SSO authentication with role-based access control to securely manage user roles such as Auditor, Admin, and Reviewer.
- Technologies used: React JS, Node JS, MySQL

#### Admission Management System (STL)

2021 – 07/2024

- Developed a admission module for Purnea University using React and Node.js, enabling seamless admission workflows and real-time data management.
- Integrated Payment Gateway, sms, email

## **Recruitment Portal (STL)**

2021 – 07/2024

- Created a recruitment module for AIIMS and DSEU using React and Node.js, optimizing applicant management and streamlining workflows.
- Integrated AWS Mail service and S3 bucket for image storing,

---
